University of Cincinnati, Undergraduate Researcher

Jan '18-April '18

- Contributed to Dr. Phillip Wilsey's High-Performance Computing Lab
- Designed discrete event simulation to model networks of neurons (C++)
- Repository: <https://www.github.com/wilseypa/warped2-models/tree/master/models/neuron>

Technical Skills

C#, C++, JavaScript, Git, HTML/CSS, Python

Personal Projects

Website

April '19

- ASP .NET CORE website written with React.js and hosted with an Amazon Web Services EC2 instance with Windows Server 2016
- URL: <http://seeandrewmiller.com/>

Github Repository

Dec '18

- Contains numerous small code projects created to explore new areas of programming

Assembled Linux Machine

Dec '17

- Ordered parts and constructed frame
- Runs five high-end GPUs to mine on the Ethereum Blockchain

Cincinnati Scholarship

Aug '16

- Recurring scholarship from UC
- Requires maintaining a 3.2 GPA, and fulfilling community service

Boy Scouts

Oct '15

- Achieved Eagle Scout rank

Availability

Available for co-op in the Spring semester of 2020
